

# Dynamic Escort Eye

## General

TUGPINS is an innovative, high end designer and producer of deck equipment for tugboats, anchor handling-, multipurpose- and aquaculture vessels. Our deck equipment is known for their high quality, user-friendliness and easy maintenance. This guarantees an optimal and cost effective use of the vessel.

### KEY FEATURES

- Compact and modular design
- Safe Working Load (SWL) of 80 MT in all directions
- Quick release

### KEY BENEFITS

- Easy to install
- Reduced weight
- Reduced wear and tear towing line
- Reduced operational cost (Opex)
- Increased safety
- Easy to use during operation

### APPLICATIONS

- Harbour towing
- Berthing
- Escorting

### ADDITIONAL INFORMATION

More information can be found at:

The TUGPINS Dynamic Escort Eye can easily be installed into the bulwark of the vessel due to its compact design. Its Safe Working Load (SWL) of 80 Metric Ton (MT) in ALL directions makes the Dynamic Escort Eye particularly suitable for escort and berthing operations. The possibility of operating the jaws independently enables the system to catch the towing line without manual assistance which increases the safety on board. The Dynamic Escort Eye is flush deck when not in operation.

The TUGPINS Dynamic Escort Eye jaws are made of polished stainless steel with a large radius which reduces wear and tear of the synthetic line to a minimum hence results in reduced operational cost (Opex) and higher efficiency.

# Dynamic Escort Eye

## Technical specification

Dimensions	Length (mm)	1650
	Width (mm)	400
	Height (mm)	1015
Weight (kg)		2200
Safe Working Load (SWL)		80 MT
Maximum line diameter (mm)		2 x 80

## Remarks

- Offshore coating
- Bespoke dimensions upon request
- Standard certification according to  BUREAU VERITAS other certification bodies such as

upon request
